2026 MASTER BATH CASE STUDY

DESIGN & CONSTRUCTION

CASE STUDY SCENARIO A

\$50K - \$70K

- 60-90 sqft footprint with no structural or plumbing changes
- New box store cabinets or painting of existing cabinetry
- Granite or lower-level quartz countertop options
- New entry-level fixtures (toilet, sink, etc.)
- Fiberglass tub or shower surround (no shower door)
- New LVP flooring or basic tile flooring
- Entry-level lighting fixtures
- No added electrical work

CASE STUDY SCENARIO B

\$70K - \$95K

- 90-120 sqft footprint with minor structural and plumbing changes
- Semi-custom painted cabinets with soft-close drawers and a linen cabinet
- Mid-level quartz countertops
- New mid-level fixtures (toilet, sink, etc.)
- Tile tub or shower surround with a glass shower door
- Mid-level tile flooring
- Mid-level lighting fixtures
- Add can lights and electric relocation

CASE STUDY SCENARIO C

\$95K+

- 120+ sqft footprint with major structural and plumbing changes made
- Custom painted+stained cabinetry mix with soft-close drawers and linen cabinets
- Quartz, quartzite, or marble countertops
- Luxury fixtures (toilet, sink, etc.)
- Tile tub or shower surround and pan
- Luxury tile flooring with a heated floor
- High-end lighting fixtures
- Add can lights, heated flooring, jetted tub, etc.

*Budgets assume demo and rebuild in existing locations, unless noted. Appliances provided by homeowner. Pricing varies with selections and structural modifications.
